

Help Installing Ekey Software

Warning : Internet connection may be required during the installation

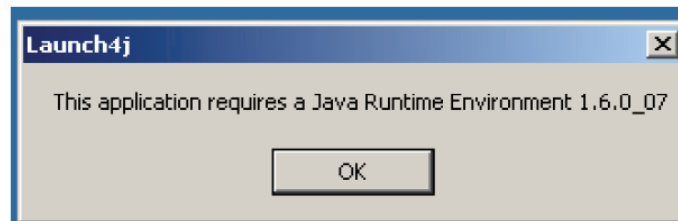

System Requirements: PC; Windows XP, Vista, 7

1. Double click on the « EkeyMacroinvertebres.exe » file to launch the software

- Click « Exécuter » (or « Run » in English) if you see this message:

- If following error message appears:

- Click « OK » and you will be automatically redirected to the Java download page (<http://www.java.com/>).
- Download (free) and install Java (follow the instructions on the page)
- Go back to step one and start again.

In case of problems during installation, please contact:
