

## Program Annual PhD students meeting, May 15<sup>th</sup> 2012

Faculty of Science, UniMail, Av. De Bellevaux 51  
Chemistry building G, auditory GPA

- 8h15- 8h45                    **Registration** 
- 8h55- 9h00                   **Welcome** - Prof. Ted Turlings – University of Neuchâtel (UNINE) 
- 9h00- 9h30                   **True stories** - Prof. *Redouan Bshary & Christophe Praz*, UNINE
- 9h30- 10h30                 **What the media expect from researchers** - Olivier Dessibourg , Head of the Science & Environment Section, Newspaper « Le Temps »
- 10h30-11h00                **Break** 
- 11h00-12h00                **How to tell a nice story** - Igor Chlebny , NCCR Plant Survival Communications Officer, Université de Neuchâtel
- 12h00-14h00                Lunch break & Poster Session 
- Poster presentation: even numbers(13h05-13h30) & odd numbers (13h30-13h55)*
- 14h00-15h00                **Social media for Scientific purposes** – Prof. Dr. Katarina Stanoevska-Slabeva , chair of Journalism and New Media at the Academy of Journalism and Media (AJM), Université de Neuchâtel
- 15h00-15h30                **Popular Scientific presentations I:**
- 15h00-15h15: Elvira de Lange - *Mighty moths, or how caterpillars find yummy food*
- 15h15-15h30: Ashok M.L - *Investigation into interacting partners of Toc159A domain*
- 15h30-16h00                **Break** 
- 16h00-17h00                **Popular Scientific presentations II:**
- 16h00-16h15: Coralie Herrmann - *Do the level of energy reserves and *Borrelia* infection influence walking by *Ixodes ricinus* (Acari: Ixodidae) ticks?*
- 16h15-16h30: Yan Sun - *High per-capita effect of a plant invader on its neighbours away but plant size matters at home*
- 16h30-16h45: Johnattan Hernandez-Cumplido - *The role of extrafloral nectar of Lima bean in an ant-pollinator conflict*
- 16h45-17h00: Durand Jonas - *Factors shaping genetic diversity in *Borrelia burgdorferi* sensu lato*
- 17h00-18h00                **Closure and Apéro**
