

For its site in Cressier (Fribourg), Bio-Rad is looking for a:

BIO-RAD

Clinical Research Associate IVD Trainee (100%) – 6 months

Your tasks

- You are responsible for conducting performance evaluations (clinical trials) for *In-Vitro* Diagnostic products in the field of Immunohematology. In this context:
 - You write the Clinical Performance Study Plan (designs, methodology, ethics, data analysis...) in collaboration with internal and external stakeholders.
 - You participate to the site selection (contract), prepare, organize, instruct, troubleshoot and monitor clinical trials according to approved protocols to ensure that study objectives are achieved.
 - You coordinate or performed data management and analysis activities.
 - You write the Clinical Performance Study Report based on the study results.
- You review analytical and clinical data, recognize inconsistencies, initiate the resolution of data problems and ensure their accuracy and integrity according to Good Clinical Data Management practices.
- You write clinical evidence documents for supporting products' registration in Europe; Performance Evaluation Plan and Report, Analytical and Clinical Performance Reports, Post Market Performance Follow Plan and Report.
- You provide reports to support worldwide regulatory submissions.
- You participate to new product design developments as Clinical Affairs representative in multidisciplinary project teams.
- You participate to the risk management process and present product performances.
- You are responsible for implementing performances in the Instruction For Use (IFU).

Your profile

- Student in master 2, or similar level
- Basic knowledge in the field of diagnostics or biotechnology.
- You are autonomous, have a proactive nature, and a strong customer-orientation.
- You have a very good command of spoken and written French and English. German would be an asset.

Our company is involved in the supply of high-quality products and services intended for diagnostic laboratories. Independence, innovation and commitment are the fundamental values that permeate our company culture, as well as a strong orientation towards our customers and a multicultural environment.

If you feel attracted to this unique opportunity and you would like to take on new challenges, we would like to get to know you. Please forward your complete application (application letter, CV, copies of work certificates and diplomas/degrees, etc.) to the address given in the advertisement.

Bio-Rad is an innovative company and thanks to its laboratory diagnostic systems, world leader in the field of blood group serology.
