

If you are interested in joining a purpose driven community that is dedicated to shaping the future of global commerce and creating an ambitious and inclusive workplace, join eBay – a company you can be proud to be a part of. Across the globe, eBay boasts a community of over 220 million registered buyers and sellers. At any given time, more than 105 million items are listed for sale on eBay sites across the world. We have a global presence in 36 international markets.

**We are offering six-month internships, starting in Sep/Oct '19
with our teams supporting global markets and based out of Bern, Switzerland**

As an Intern in **Finance / FP&A**, you will:

- Support business partners during forecasting, reporting and planning cycles
- Monitor business performance, understand and challenge reported metrics
- Deliver financial analysis and insightful weekly performance updates highlighting and quantifying key issues and risks being faced by our business
- Be closely involved with core finance operating processes
- Support the operating review, to enhance the company's profitability

As an Intern in **Accounting**, you will:

- Support the financial and administrative activities of the Shared Services Center responsible for the accounting for circa 50 European entities
- Assist in the preparation of audit requests
- Maintain internal databases, as well as digital and physical financial records
- Participate in the monthly close process and the preparation of financial statements

As an Intern in **Data Science** (part of the Business Performance team), you will:

- Support the Business Performance team whose responsibility is to report and analyse trends in global metrics to give actionable recommendation to the business
- Maintain the Performance Drivers Model that predicts future outcomes on key metrics
- Develop and test new model predictors for global business performance
- Automate and speed-up the modelling pipeline (queries, modelling, quality/anomaly checks, reports)

Requirements:

- Currently enrolled as a Master student or recent graduate in a relevant field
- Available for a 6-month internship in Bern, starting mid-September / beginning of October
- Internet affinity and enthusiasm for e-commerce
- Ability to work independently and collaboratively with multiple teams located in different regions
- Very good command of spoken and written English
- Excellent Microsoft Excel & presentation skills
- Knowledge of SAP/BW/BPC systems and Database querying skills (e.g. SQL) considered a plus
- **Data Science** position: moderate level in Programming (R, Python), Time-series analysis and modelling, Machine learning; basic skills in Linux/UNIX OS
