Master in Finance (90 ECTS)

- All students need to earn 90 ECTS at least, 60 ECTS in mandatory (M or DS-M) and 30 ECTS in elective (E) courses.
- In place of the electives (E), a maximum of 18 ECTS can be chosen in other master programmes at the Faculty of Economics and Business and/or MScF programmes in other Swiss universities. Approval of the Director of the MScF is mandatory. In addition, 6 elective ECTS can be replaced by an internship of at least 6 weeks including the writing of a report supervised by a professor of the Faculty of Economics and Business. Approval of the Director of the MScF is mandatory. In addition, 6 elective ECTS can be replaced by passing the CFA level I exam.

Research Option (120 ECTS)

- Students interested in a research career have the option to complete a research thesis to earn 30 ECTS and bring the total amount of ECTS to the number of 120.

Data Science Option (120 ECTS)

- Students interested in Data Science can earn 30 ECTS in the Data Science Track (DS-E or DS-M) and bring the total amount of ECTS to the number of 120.
- In this case, the courses DS-M are mandatory. In addition, the courses Programming (3 ECTS, DS-M), Data Science (6 ECTS, DS-M) and Data Management (6 ECTS, DS-M) are automatically converted to Data Science Track courses.
- Computational Thinking (Data Science Option); one-week workshop organised the week before the beginning of semester 4 spring. The course Computational Thinking can be anticipated in the second semester.

E: exam during the exam session at the end of the semester; EI: evaluation organized during the semester

Retake exam after 1 failure: 2h written exam during the exam session at the end of the semester or the September session.

Retake exam after a justified absence: 2h written exam during the exam session at the end of the semester or the September session or evaluation organized during the semester. *The detailed terms of evaluation are specified in the course description.*
